

140 kg Ice Vending Machine

Description

140 kg self-service ice vending machine possesses bagging system and sealing system with ice capacity 140kg. Pukui is a professional manufacturer of vending equipment. This ice cube vending machinery is our main and hot-selling product. It replaces the existing large storage freezers that require truck delivery from ice factories and associated labor for stacking, level maintenance and payment. It also alleviates the current problems that customers may experience with melted, compacted and unpleasant taste ice. This self-service ice vending machine mainly consists of powder coated steel cabinet, coin acceptor, bill validator, system board, ice making system and ice bagging system. When customers fling coin or swing the card, the automatic ice cube vending machinery will sell the edible ice automatically.
