

# Bulk Ice Vending Machine

## Description

Bulk ice vending machines have replaced the existing large storage freezers that require truck delivery from ice factories and associated labor for stacking, level maintenance and payment. It can alleviate the problems that customers may experience with melted, compacted and unpleasant taste ice. The bulk ice vending kiosk makes our clients no longer be concerned about bag breakage and theft. The important issues of hygiene, cost efficiency, labor reduction and environmental impact have been taken into consideration and reflected in our design. Bulk ice vending machine mainly consists of powder coated steel cabinet, coin acceptor, bill validator, system board, ice making system and ice bagging system. Through this ice vending kiosk, people can buy bulk ice by coin or IC card. Pukui also provides water vending machine, small vending machine and water filling machine.

## Features

1. Pukui bulk ice vending machines sell bulk ice by the kilogram.
2. Luxurious waterproof steel cabinet and stainless steel vending compartment contribute to its safety and easy installation.
3. This bulk ice vending kiosk uses efficient spray ice film to make ice automatically.
4. End users need to take their own containers.
5. Digital vend counter makes the bulk ice vending machine able to record the vending situation.

## Operation and Maintenance Attentions

1. It would be best for customers to send the engineer to our factory for training of the bulk ice vending kiosk operation.
2. Our company offers one year warranty for the broken parts of this bulk ice vending machine. Clients can contact us via email or phone for after sales.

## Packaging and Transportation

We package bulk ice vending kiosks in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
