

Coin Operated Ice Vending Machine

Introduction

Coin operated ice vending machine is a unique, efficient and commercial grade vending equipment that produces and dispenses pure and fresh ice on site. This ice vending kiosk can provide ice 24 hours a day and seven days a week. Ice can be supplied directly into 2 kg or 4 kg bags, or straightly put into an esky or other cool-storage containers. It makes use of efficient spray ice film to make ice, make ice, pack ice in bags and seal bags automatically. Pukui coin operated ice vending machine mainly consists

of powder coated steel cabinet, coin acceptor, bill validator, system board, ice making system and ice bagging system. Pukui is a professional manufacturer of ice vending kiosks. Customers can buy ice by coin.

Features

1. Luxurious waterproof steel cabinet and stainless steel vending compartment contribute to its safety and easy installation.
2. Digital vend counter can record the vending situation of coin operated ice vending machines.
3. The ice vending kiosk is compact with a much smaller occupying area than conventional ice machines. Customers can utilize more valuable land space.
4. Intelligent coin self-service technology makes billing accuracy reaches \$ 0.01.
5. Pukui coin operated ice vending machine owns advanced reverse osmosis

purification system in accordance with NSF standard.

6. This coin operated ice vending kiosk can provide bulk ice and bag ice to satisfy different requirements.

Operation and Maintenance Attentions

1. It would be best for customers to send the engineer to our factory for operation training of the coin operated ice vending machine.
2. Our company offers one year warranty for broken parts of ice vending kiosks. Clients can contact us via email or phone for after sales.

Packaging and Transportation

We package coin operated ice vending machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

Technical Parameters
