

Cold Water Vending Machine

Introduction

Cold water vending machine is equipped with a cooling system to provide fresh cold water for customers. The cold water tank's capacity can reach 12 L. It is often applied in community, office, cafeteria, school, hospital, waiting room and other public places. Advanced power management system can automatically power down the drinking water vending machinery during low use time. Its enhanced customer interface and large touch keypad make choosing a drink quite simple. Cold water vending machine mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board. Customers can buy purified water by coin or IC card.

Features

1. Made from stainless steel and powder-coated steel, this cold drinking water vending machinery is extremely reliable and easy to service and maintain.
2. Installed with digital water vend counter, the automatic cold water vending machine can record vending situation.
3. Water production capacity is from 400 GPD (1500 L) to 3000 GPD (11350 L) per day. The water sales capacity can be flexibly adjusted according to customers' needs.
4. With pre-treatment sand and carbon filters, this drinking water vending machinery realizes strong pretreatment and reversed flushing to reduce using cost.
5. Pukui cold water vending machine uses 24-hour uninterrupted UV sterilization to guarantee water quality.

Operation and Maintenance Attentions

1. We need to know the source water quality and choose a cold drinking water vending machinery with proper water production capacity.
2. Our company provides one year warranty for the broken parts of cold water vending machines and offers excellent after-sale service.

Packaging and Transportation

We package the automatic drinking water vending machinery in carton for ordinary order. For bulk order, we use plywood cases for sea or air transportation.

Technical Parameters of Cold Water Vending Machine

Sub-Model	Daily Production	Power Input	Voltage	Source Water	UV Lamp	Ozone	Recycle Rate	Desalting Rate
RO-300-BZ-400	400GPD	220W	AC	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-600	600GPD	260W	220V	Water	20W	1000mg	30-45%	98%
