

Economic Water Vending Machine

Description

Economic water vending machine runs a set of procedures like tap water filtration, infiltration, eight stages of mineralization, oxygen and sterilization purification in accordance with the water quality standards. This automatic drinking water vending machinery provides 24-hour high quality drinking water for customers. It mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board. Customers can buy purified water by coin or IC card.

Features of Economic Water Vending Machine

1. Pukui drinking water vending machinery is designed with a waterproof carbon steel cabinet and a front door, which make it enjoy advantages of safety, durability and easy installation.
2. 24-hour uninterrupted UV sterilization guarantees the water quality.
3. Made from stainless steel and powder-coated steel, the economic water vending machine is extremely reliable and easy to service and maintain.
4. The economic drinking water vending machinery is equipped with digital water vend counter that can record vending situation.
5. Light box and light inspection can be controlled by the photosensitive to save electricity costs.
6. Water production capacity of the economic water vending machine is from 200

GPD (7500 L per day) to 800 GPD (3000 L per day).

7. This automatic drinking water vending machinery makes use of airtight filling and ozone sterilization to prevent the secondary pollution completely.
8. There is a light in the filling room so that users can check any impurities in the water directly.

Operation and Maintenance Attentions

1. We need to know the source water quality and choose an economic water vending machine with proper water production capacity.
2. Our company provides one year warranty for broken parts of this drinking water vending machinery and offers excellent after-sale service.

Packaging and Transportation

We package economic water vending machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
