

RO Water Vending Machine

Introduction

RO water vending machine is a kind of automatic water vending machinery. It can provide clean and healthy drinking water for consumers 24 hours every day. Adopting advanced technology of reverse osmosis filtration, UV sterilization and ozone sterilization process and circuit automatic control system, it can effectively remove original harmful substances, such as sand, alga, chlorine, heavy metal, organic composition and germ. With 12 years production experience, Pukui provides RO water vending machines with great appraisal form our clients. RO automatic water vending machinery is suitable for office building, restaurant, public community, campus, apartment, shop, camping ground, gym, stadium, supermarket and other places. Customers can buy purified water by coin or IC card.

Main Parts

RO water vending machine mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board.

Characteristics

1. Automatic water vending machinery features simple structure, luxurious appearance and 100% waterproof design.
2. Usage of our RO water vending machines will decrease usage of plastic bottles.
3. With pre-treatment sand and carbon filters, it realizes strong pretreatment and reversed flushing to reduce using cost.
4. Pukui automatic water vending machinery adopts advanced RO purification technology. The purified water quality is in accord with national standards.
5. The bottle is washed by ozone water, which avoids second pollution.
6. Water storage tank of RO water vending machine ensures pure water supply. 24-hour uninterrupted UV sterilization guarantees water quality.
7. The automatic water vending machinery possesses automatic photosensitivity sensor control and lamp inspection functions, which can save power and water.
8. Water production capacity is from 400 GPD (1500 L) to 3000 GPD (11350 L) per day. The water sales capacity of our RO water vending machines can be flexibly adjusted according to customers' needs.
9. Made from stainless steel and powder-coated steel, Pukui automatic water vending machinery is extremely reliable and easy to service and maintain.
10. Precise water quality TDS monitor technology makes us know the water quality condition instantly.

Operation and Maintenance Attentions of RO Water Vending Machine

1. We need to know the source water quality and choose an automatic water vending machinery with proper water production capacity.

Jiangmen Pukui Intelligent Machine Co., Ltd

Address: Lubian Industrial Zone, Chaolian Town, Pengjiang District, Jiangmen City, Guangdong Province, China

Tel: +86-750-3727343

Mobile: +86-13750376668

Fax: +86-750-3723532

Sales Manager: Mr. John Chen

2. Our company provides one year warranty for the broken parts and offers excellent after-sale service.
3. Users need to replace RO water vending machine's filter elements timely, which can ensure long-term good water quality. The replacement period is based on water quality and mineral composition.

Packaging and Transportation

We package this RO automatic water vending machinery in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

Technical Parameters of RO Water Vending Machine

Sub-Model	Daily Production	Power Input	Voltage	Source Water	UV Lamp	Ozone	Recycle Rate	Desalting Rate
RO-300-BZ-400	400GPD	220W	AC	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-600	600GPD	260W	220V	Water	20W	1000mg	30-45%	98%
RO-300-BZ-800	800GPD	300W	50Hz/	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-1300	1300GPD	510W	AC	Water	20W	1000mg	30-45%	98%
RO-300-BZ-1600	1600GPD	1550W	110V	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-3000	3000GPD	1950W	60Hz	Water	20W	1000mg	30-45%	98%
