

Water and Ice Vending Machine

Introduction

Pukui is committed to providing consumers the purest ice and water available made by our ice and water vending machines. It can produce pure and fresh filtered ice and can dispense it into a plastic bag or directly into customers' cooler. With this vending equipment, customers will never wait for ice to be delivered to your retail location. It uses the imported filtration

system so that clients can sell the freshest products possible. This ice vending machine makes consumers enjoy earning at least 65% more profits than traditional ice sales. We also capture additional revenue on the sale of purified water from just one ice and water vending machine. Pukui is a leading manufacturer of vending equipment in China. Consisting of powder coated steel cabinet, coin acceptor, bill validator, system board, ice making system and ice bagging system, it accepts both cash and credit card.

Features

1. Ice and water vending machine is remotely managed by our proprietary web-based monitoring system, providing real-time reports on sales, product volume, maintenance alerts and more.
2. This vending equipment utilizes a filtration system which removes particles as small as half a micron and virtually eliminates chlorine and other chemicals through carbon filtration.
3. It adopts advanced RO purification technology. The water quality is in accord with the Chinese national standards.
4. Our ice and water vending machines can sell pure water and ice cube at the same time.
5. Digital vend counter can record the vending situation of ice and water vending equipment
6. It is convenient to replace filters and easy to maintain

Operation and Maintenance Attentions

1. It would be best for customers to send the engineer to our factory for the operation training of ice and water vending machine.
2. Our company offers one year warranty for the broken parts of this vending equipment. Clients can contact us via email or phone for after sales.

Packaging and Transportation

We package our products in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
